Their papers are now in the National Archives. This selection principally concerns lead mining leases, rights and land that had belonged to the Forsters of Bambrough and Blanchland, with some minor reference to those of the Earls of Derwentwater. Mostly they are concerned with disputes over Jeffrey's Grove lead mine near Blanchland and Hunstanworth. These papers are held in FEC 1/702-7, and individual notes indicate more precise references below.]

The Lease from Mr Forster Mr Swynburn and Mr Bigg to Mr Rawlin

1 Aug 1717 Thomas Grey

[Note: FEC 1/707. Undated but claims 2½ years left of the lease, which the lessees usually claimed to be Feb 1720, so 1 Aug 1717 used here.]

To the honorable Commissioners by Act of Parliament resideing in England to enquire of the Estates of certain Traytors and of Popish Recusants & of Estates given to Superstitious use in order to raise money out of them severally for the use of the Publick

The humble representation of Thomas Grey of Howick in the County of Northumberland Esq who representeth.

That about seaven years agoe he was entitled to the residue of a term for yeares granted by lease in writeing of a Leadmyne called Jeffrey's Grove in the County of Durham as Executor of Mrs Grey who was assignee to Mr Rawlin who was Lessee in the said Leases: who severally entred into & upon the possession of the said Leadmynes: of which Lease there is but two years & a half to come or thereabouts before the same expires.

That Thomas Forster Esq was entitled to the Rents reserved on the said Lease and to the reversion expectant on the determination of the said term, but being lately attainted by Act of Parliament of High Treason the same is to become forfeited to the Crown.

That the said Mr Rawlin and Mrs Grey (under whom the said Mr Grey claimes) finding great difficulties & obstructions by water and otherwise to win the said Leadmynes, they severally expended & laid out great sums of money in endeavouring to conquer & overcome a vast surcharge & load of water & to make her turn to a good account & work to the advantage of the parties concerned but the same prov'd ineffectual & to no purpose the said Grove not working to any gain but on the contrary to their considerable loss and disadvantage.

That when the said Mr Grey entred upon the said Leadmyne he found the same difficulties & obstructions as aforesaid by water by reason whereof the said Leadmine cou'd not possibly be wrought without such water was removed and convey'd away and there being noe Level for that purpose in the said Grove, the said Mr Grey was advised & accordingly did make fix & erect a water Engine for that purpose (which cost him four hundred pounds and upwards) and thereby effectually won the said mine yet for two or three years afterwards she wrought to loss and noe advantage.

That if the said Mr Grey hath not his lease renewed then by removeing and takeiing away the said Engine which is fixed and stands twenty six yards under the Levell in the said Grove (where the same had been formerly wrought) the water by such removall of the said Engine will settle & lodge there & drown all the low part of the said Grove which is about three hundred and forty fathom in length & might be

wrought if the said Engine remaine, but if the same is taken away the Grove in that part cannot be wrought without a vast expence to the undertaker and great loss and detriment to the Crown, for that in the course of working the said Leadmine they doe & must work the same North Eastwards which being on the deep hand the water will unavoidably lodge & settle there and cannot be removed and convey'd away by vertue of such Engine as aforesaid.

[Note: FEC 1/705. Undated but from the context reads as though written as a covering letter for a report on the coal mines at Stella and lead mines at Jeffreys, Shildon and Alston Moor, now TNA FEC 1/742. That report is itself undated but some internal points hint at the summer of 1718. It is assignedn a date of 1st August 1718 here.]

May it Please your Honours

With most Humble Submission and in obediences to your Honours Commands I have hereunto annexed the Estimate of Jeffreys Grove, the best I am capable to do at so great a distance and supposing the Grove to be in the like Condition I have knowne and been informed, shee has been for some years past.

It is my opinion that the Grove when the Lease is expired, if not Ruined by Unfair working may be Lett to some that will worke her fairly and effectually too; att every 6th or 7th Duty.

As to the Late Lord Darwentwaters Lead Mines they were Generally Lett by Tack Note or Lease, paying one fifth Duty and Limmitted to a certain number of yards in length and breadth.

A tack note should be Renewed every year if no Lease in that time be Demanded.

A Lease is generally for 21 years Granted, and Subject to a great many Covenants and the Discontinueing workeing with such a number of pickmen as Agreed to, or the breach of the other Covenants by Unfair working, the same becomes a forfeiture into the hands of the Lord of the Royalties.

As to Collierys they are More or Less valueable, according to their Situation, the height of the seam, the Goodness of the Coal, and the Water Charges that may attend the Same & the other Contingencies, together with Conveniencies to the water as to wayleave etc which without viewing one may be vastly wide in estimation. And are generally Lett for a yearly Rent or by the Term which is Generally accompted better.

1 Apr 1719 Chambers Slaughter

[Note: FEC 1/706 A. Although there is no direct clue to authorship of this undated note of questions and answers regarding Jeffreys Grove and other mines, Newcastle lawyer Chambers Slaughter submitted opinions to the Forfeited Estate Commissioners in 1720, so these queries are ascribed to him here. Since it mentions the Jeffreys lease as being expected to expire on 1st August, which would have been 1719, this year is assumed, and given an arbitrary date of 1st April being a few months in advance.]

Jeffreys Grove

Quer: the water in the Dean and Chapters Libertys, if may treat with them for it that it may supply Gins. [no answer given]

Quer: if the Lease be expired, or do expire the first of August what is proper to be done, and if the Leasor may have Liberty to Remove the water Gins. [no answer given]

1 May 1719 Henry Grey

[Note: FEC 1/706 A. Undated, but in insisting on a right to work the miens until Feb 1719, ie. 1720, it must predate that. Arbitrarily assigned a date of 1st May 1719 here, to place within a presumed sequence of assertions from around that time regarding the lease.]

The Answer of Henry Grey Esq to the Charge of Robert Stoddart Gent & Jonathan Maughan Gent

The said Henry Grey for Answer saith that he hopes (and most h[um]bly insists upon it) he has a Right to work 300: yards of each side of Jeffrey's Grove by vertue of his lease untill the 2 February 1719.

The said Henry Grey further saith that ab[ou]t 3 Y[ea]rs agoe he left the original Lease with Mr Slaughter at Newcastle who had it in his custody some days; which Lease the said Henry Grey saith was left in Mr Slaughters possession for his perusall and information And saith that he never had any disturbance in the working of the said Grove And that the Agent or Agents to the honorable the Com[missioner]s of the

forfeited Estates, did from time to time as he or they see occasion, view & inspect the working of the said Grove and took an Acc[oun]t of the Duty Oar as usuall without complaining or mentioning of any unfair working.

And further the said Henry Grey saith that the sume of £1200 mentioned in Mr Stoddards charge (for damages done to the said Grove by unfair working of the said Grove and of pulling down houses) is a very unjust charge, as the said Hen: Grey hopes to make it appear by severall affid[avit]s to which the said Henry Grey begs leave to referr himself: And saith that there was only a little Cover made over the Engine which was built by his Brother and which was all the Buildings upon the Premises that was pulled down, And saith that there was left standing at the expiration of the Lease one Storehouse, two Smith Shops and one house which the said Henry Greys Brother built, but was not obliged to leave that standing at the expiration of the Lease as he humbly conceived And he hopes he shall be allowed £20 for them they being worth the same as he believes.

And further saith that he conceives there is noe Coven[an]t in his Lease to oblige him to leave the said Grove at the expiration of his Lease in good and sufficient repair, But saith and doubts not but to make it appear to the said Hon[ora]ble Com[missioners] that the same were left in good order and in a much better condition than most of Lead Mines are left, at the expiration of Leases. And he saith he has a power, by his Lease to remove his Engines Worktools etc Six Months after the expiration of the Term for working of the Mines; and further saith that he has orders from the said honorable Com[missioner]s for the removeing of the Engines etc before last Midsummer day which the said Henry Grey did accordingly.

Sirs

According to your order Jno: Watson and I has been Veiwing Jefras Grove and Shildon but by Reason of the Ingins not working att Jefras Grove non has wrought for 3 month before wee could not geet into the old vaine by Reason this was full of water and what the reason is that Mr Weatherley Letts the InGINE Stand I cannot understand the meaning of itt except itt be for this reason: that his lease being allmost Roun out he May think that itt will be a hindrance for any bodey to put in for itt when the Lease is Expired Neither can I think that he is obliged to take the water out except he please So all I can say the Grove is a good Grove if she be manedged but as long as his time lasts

in the lease he may maniedg as he think fitt. Shildon Grove being out of Repare wee could not Geet in to her but I believe she is fairly caried on So Sir

I am yours honours very humble servant [to] command

May it please your Honours

As my former letters would intimate, that so soon as the Water was Drawne out of the Soles (or lowest workings) at the Groves of Jeffreys; and Shildon, that I would not make any delay of making my report (To Your Honours) the condition they are in: through the favour of the late rains, they have gott the lowest workings in the Sunn Veine at Jeffreys cleared of water: whereupon I immediately viewed the same; and found them not so good as expected. As mine (to your Honours) of the seventh of November would signifie, that the then present (or upper workings) were Tollerable good; they continue so as yet; and in all probability may: tho att present they give great prices per Bing for Working, which is partly occasioned by the want of Shafts and sumps at the foreheads which obliges them to employ a great many labourers to bring the metal on banke. The best Workings in the Soles is a forehead at No. 8 and the upper workings at the said number are much better then these at No. 9, relation being had unto the mapp I sent you for the said Numbers: as to the Midle Workings or these behind the forefields, some are pretty good but those are not much to be observed, because they will soon be cutt out.

It is always a Rule in Mining: that as the forefields are good or bad and the streak of ground hopefull or unhopefull, together with the conveniences of Smelting, being free from Water, the Silver that the Lead produces, nearness to a Market etc. So are the mines Vallueable or invallueable.

With most Humble Submission it is my Opinion that when the vains at Jeffrey's are Driven from No. 4 & 8 forty fathoms to the East, and then should prove even as now in the Sunn Vaine, would in all probability be a valueable Grove, my reason is because the Oar in the North or Old Vaine Dibbs from them, in the Soles (or lowest workings) which if should rise againe into the Upper Sills, would be very promising, and if should not, would be the contrary, the Mine being wrought as Deep as the Gynn will suck the water, that the lower Sills cannot be wrought without removing the Gynn's; and placing them upon the Vaine in Boltsbourn between the Liberties of the Publick and that of Mr John Ord's, or otherways by Driving of a Levell between No. 5 & 6 as the prickt line in the Mapp doth show. I dare not Say that Shee will or will not prove a good Mine: Only this, there are a great many good Symptoms of her proving a good and lasting Grove. The greatest artist in Minery cannot tell further then what they are when they see them; and can only guess at what they may be by their Symptoms; The

Quantity of Oar Jeffreys Grove hath Produced from the 27th Feb 1717/18 To the 18th November 1719, I gave Mr Slaughter an Acc[oun]t in mine of the 23rd Ultima: there hath been little Delivered since.

As to the Shafts, Levels and Driffts that are out of Repair. Mr Wetherley hath promised me they shall be putt into good and sufficient repair, whether Mr Gray purchase or take again or not; and hath given Orders Accordingly to the Workmen to Repair them. I omit here explaining the Terms used in Mining, as to Shaffts, Sumps etc being I did it in an Estimate of Jeffreys Grove Laid before your Honours the 2nd of June 1718.

As to Shildon they have not gott the Water Drawne out; there is no Oar wro[ugh]t at her as yet; Shall make no delay of Reporting the Condition Shee is in, so soon as the Water is out; I looke upon it as a great Neglect in in these Concern'd in Shildon, that do not bring Water Sufficient to cause the Gynns to go Summer and Winter which may be done without any great Charge, as shall Demonstrate when makes my Report of the said Grove.

The lease of Shildon from Thomas Foster esq to John Doubleday bears date the tenth of March Anno 1706, the term Twenty One years, the Duty every seventh part, the Limmits is all Vaines Opened and not Opened which are within half a mile of Shildon every way. The Lessee by a Covenant doth oblige himself to spend or Lat out £100-0- in Working and Carrying on the Grove at Shildon every year or Desist from Working.

In mine of the 8th August 1718 gave (Your Honours) Acc[oun]t, that there were some of the Blands: pretended to have taken a Lease of the Groves at Jeffreys and Shildon; of one Mr Phillip Peck and claimed a Tytle thereto By Virtue of a Grant from Queen Elizabeth To The Society of Marchants in London; they continue yet to amuse People, and particularly these to whom they have sold shares, with the hopes that they shall be put into Possession of the said Groves at the expiration of Mr Greys Lease; having prevail'd with one Nicholas Armstrong: to allow me the priviledge of sending the Inclosed Assignment to Your Honours to peruse that may see the great Presumption of these men. Humbly desiring that it may be Return'd after Perusal according to my Promise to him.

I am with great obedience

Your Honours Most Obedient and very Humble Serv[an]t

[separate sheet, item I 9/3]

Some things previous which are Necessary to be knowne, before any Estimate can be made what proffitts in all probability a Lead Mine may produce, Viz What repair the Shafts and Sumps, Topp and Low Levells are in, Crosscutts and Midlings, foreheads and Water Gains etc.

In obedience to your Honours Commands I have as under given some Idea what Jeffreys Grove may produce if continue in the like condition as has been for some years past.

If Jeffreys Grove produce as Duty Oar to the value of £210 the Dues being each 10th part. The Oar being sold at 40s per Bing each Bing contains 8 cwt or 64 stones

The Lessees Quantity of Oar	945 Bings	
The Lords Dues	105	
Tott	1050 Bing	
To 1050 Bing of Oar at 40s per Bing		£2100-00-00

Note that every 5 Bings of Oar produces one fother or 21 cwt of lead if well washed

5 Bings of Oar at 40s per Bing	£10		
Smelting and fuel	00-12-00		
Carriage to the Mill	00-01-08		
Extracting the silver from the lead	00-10-00		
Loss of lead in extracting	01-05-06	12-09-02	
Prof[it] per fo[ther]		01-12-06	
			14-01-08
1050 Bing of Oar will make 210 fother of lead			
210 fo[ther] of lead with the charge at £12:9:02	£2623-05-00		
profit in extracting etc	334-05-00		
			£2957-10-00

An explanation of the Termes on the other side

Shafft – A shaft in Lead Mines, is that which is Called a Pitt in Collierys and is Suncke or Digged sometimes 20 to 50 yards in Deepness from the Surface, as Occasion may Require.

Sumps – A Sumpe or Sumpes are Continued one to another for Convenience of Drawing the Mettall to the foot of the Shafft etc.

Topp & Low Levells – The Topp Levells are Generally for Conveying the water and air from one Shafft to another, the Low Levells are for the like use to the Sumps.

Midlings – The Midlings in Groves are the same as walls and pillars in Collierys, to prevent the Sides and Earth from falling, which when unfairly wrought is of evil consequence.

Gins – the water Ginns are for working Deeper then has Levells and bringing the water to the Levells.

To Winning and washing 1050 Bings of Oar at 20s per Bing Supposing that one with another may be wrought	£1050-00-00
To timber and Wincells 4s per Bing	£210-00-00
Steward Sallery & Water Charge	£100-00-00
	£1360-00-00
Proffit if wrought and Sold in Oar	£740-00-00
	£2100-00-00

Note that each fother of this Lead will
produce 20 ounces of fine silver
20 oz of fine silver at 5s 7d per oz £5-11-08
the fother of lead £8-10-00 £14-01-08

210 fothers of Lead with the silver that is
extracted from it at £14-01-08 per fother £2957-10-00

If the Like Quantity be gott and if
sold in Oar the profit will be £740-00-00
If in lead and extracted £334-05-00

To the Ho[oura]ble The Commissioners and Trustees for the Forfeited Estates at Their
Office in Essex House London [Annotation in pencil:] Jeffreys Grove /Report on

May it Please your Honours

In obedience To Your Commands by Mr Martens of the 9th ultima, I went along
with Mr Stoddart to Jeffrey's Grove, to Inspect the Condition they were in, gave answer
to Mr Martens by mine of the 10th Instant, and reported my opinion of Said Grove, so
farr as the present circumstances thereof will allow.

Mr Robert Stoddart by a letter to his Brother of the 12th Instant, Saith that having waited on your Orders, that wee should Mutually agree in one representation of the State of Said Grove, and Royalties of Blanchland, and the other abuses relating thereto.

With Most Humble Submission, it is our Oppinion that the Damages by Working of the Said Grove will be very great, but cannot be perfectly understood until the Water is Drawne out, which will be at the perrill of Mr Henry Grey & Mr Edward Weatherley. The Grove hath been wrought since the expiration of the Lease, and continues as yet to be Wrought by the Orders of Mr Weatherly and his agent John Steward, and all the Oar on Bank Removed off[f] the premises by Order of the Two last named persons. Mr Weatherleys agent John Steward, and their Workmen at said Grove have used scurrilous expressions ag[ains]t us both Since the said inspection, pretending the Right of the Said Grove to be entirely in their Master.

The Bishops agents Mr Stonehewer of Durham and Mr Edward Grey of Shorstone in Northumberland gives it out that the B[isho]pp will dispute his Right with the Publick or Purchaser to every member of the Royalties of Blanchland, and that Mr Fosters Tytle was no further then one half of the Mines of Jeffrey's and Shildon, and that the conveyances from Mr Foster to the B[isho]pp would enable them so to do.

Therefore with Humble Submission wee offer it as our opinion that it may be convenient for the Purchaser to have the aforesaid Gentlemen with their Acc[oun]ts Conventions & conveyances, together with the Bounder Book of Blanchland, which is said to be in the hands of Mr Edward Grey, called for, and examined before The Board, in Order to finde out, Rectify, & Recover the Boundary, Privileges, abuses, & Dues, that it may be for the Purchasers advantage to have Possession Delivered in order to prevent any further abuses.

To the Honourable the Commissioners & Trustees for Sale of Forfeited Estates etc

In Obedience to Your Order of reference to me Yesterday touching the Damages and grievances sustained by the Purchaser of Jeffreys Grove etc I humbly beg leave to Observe that with other advantages specified in the Lease of the late lessees they in particular had full power of making water Courses, driving drifts, sinking shafts Erecting Engines and other Conveniencys etc also full authority with a priviledge of way Leave in over and along the Grounds and Lands of Blanchland with Horses, Wains, Carts and other Carriages for the leading as well as laying, washing, smelting Carrying and Conveying of Oar etc. Likewise the boundary as specified in the above mentioned Lease together with power to Digg any quantity of peat Turf Soile etc within the Contents and limits of One thousand Yards Square of any part of the Common or Moore whereon or wherein the said Grove lyes in order to be burnt for the smelting of Oar etc.

The late Lesses were by Covenants in the said Lease during the residue of the terme to worke the said Groves and Mines fairly orderly and effectually according to the usuall method courses and means of working of Lead mines etc.

I have perused Mr Maughans and William Stoddarts their joint letter where I find that the whole property of Blanchland is like to be disputed by the Bishops of Durham's Agents contrary to the priviledges granted to Lessees under William Foster Esq.

I also found that by the said Letter that Mr Wetherley Agent of Mr Grey have wrought and still continue to work the said Mines tho' the Lease be expired & carry of[f] the Oar from the premises without accounting for the dues contrary to the Covenant in the Lease & that Complaint is made of their ill usage by said Wetherleys Servants in their inspection of said Grove by your Order. It is therefore Humbly proposed to have the aforesaid Gentlemen with their Accounts Covenants & Conveyances together with the Boundar Book of Blanchland which is said to be in the hands of Mr Edw[ar]d Grey called for & examined before the Board in order to find out rectisfy & recover the Boundary priviledges abuses & dues that it may be for the Purchasers advantage to have possession delivered in order to prevent any further abuses.

I gave your Honours an Acc[oun]t from Wolsingham this day how I had provided by making a seizure of all the Oars on bank at Jeffreys Grove, together with every of the appurtenances relating there unto, (pursuant to your Honours orders). I kept two men to attend five days and nights, to prevent anything being removed off[f] the premises they took a Schedule of what Oar by computation might be on Bank and of all the works tools etc could find, then gave a Discharge to the agents of Mr Grey and Wetherley, from removing anything off[f] the premises, without Speciall Lycence from Your Honours so to do, I also shewed them the Order I had from your Honours to make seizure. But to my great Surprise when I came to the Grove [1 word missing] Day, found they had removed all the <cutting or best> Oar that [1 word missing] <washed up at the prem.ses into Mr <Ords> Liberty, as also <along> [3-4 words missing] whatsoever belonged to Mr Grey or Wetherley, thought proper to loose no time in Acquainting your Honours therewith, that they may have propper Chastisement for Contrevening of your Honours Orders I am

[Note: FEC 1 702A]

To the Honourable the Commissioners and Trustees for Sale of the Forfeited Estates.

In pursuance of Your Honours Order of Refference to me of the Twenty eight of November last Between Mr Robert Stoddart purchaser and Henry Grey Esq and Edward Wetherley late Lessees of Mines and Grove called Jeffreys Grove in the Lands of Blanchland in the County of Durham I have examined the matters in dispute which were reduced to the following Heads Viz:

First The time of the Determination of the said Lease.

Which the purchaser insists upon to be on the Tenth of August 1719 and the Second Dimise of Six Months ending the Second Day of Febuary 1719 following for working or getting any Lead or Lead Ore within the limits of Three hundred yards on either side of the said Grove called Jeffrey's Grove and also to get peat and turff and to carry of[f] the Stock and working Tools any time within the said additional term of Six Months ending the Second of Febuary 1719.

The Lessees insist upon not only the liberty of working the said Three hundred Yards on either side, but Jeffry's Grove itself from the said Tenth of August 1719 to the Second of February following

I beg to Observe that the interest of the Additional term of Six Months ending February the Second 1719 was granted for making tryalls within the said Three hundred yards on either side and removing the Engines Stock and Matterials for working and that the Lessees had no right to work the Veins of Jeffryes Grove after the said Tenth of August 1719.

Secondly The Quantity of Oar to be accounted for by the Lessees.

The Quantity of Oar got from September the 21st 1717 to Feb: 17th 1719 is Bings 241b.3.1 Bouse Oar. During the same time 43b.-.1 Cutting Oar.

This account is agreed upon by the partys.

But what I desired to be informed was, that in the Account the Quantity wrought from September the Twenty first 1717 to the Tenth of August 1719 (the Time the Lease expired) might be distinguished from the said Tenth of August to the Second of February following (the time in dispute after the expiration) But this could not be answered too, by either party, so that the Dues on the whole Quantity wrought was as above.

On Bouse Oar will be Bings 241.2.3

On Cutting Oar will be Bings 43.2.1

Thirdly The price of the Oar to be Settled on the quantity carry'd off by the Lessees.

The purchaser demands Two pounds Seven Shillings and six pence per Bing for Grove Oar and One pound Fifteen Shillings per Bing for Cutting Oar.

To support this Demand the purchaser produces an Agreement with one Charles Alsopp Dated the Sixteenth of September 1720 for all the Oar, that shall be delivered to him untill the First of May next and that some of the same Oar that Mr Wetherley left on the premises is also delivered at the same price.

The Lessee Mr Wetherley and Grey insists on an Agreement with one Mr Dale & Company for Bouse Oar One pound Eighteen Shillings per Bing and for Cutting Oar One pound Ten Shillings per Bing in February last.

Both partys require that the common method of Selling Lead should be laid before this Honourable Board Viz: For every five shillings per fodder in the Lead One shilling per Bing in the Oar.

The Lessees therefore say that they Sold Lead at Nine Pounds one Shilling and Six pence per Fodder in February last & from that time to September following it advanced to Ten pounds Fifteen Shillings per Fodder.

The purchaser Mr Stoddart urges that the Oar of Jeffryes Grove is worth more by Six shillings in a Bing than other Groves in respect to the conveniency of the carriage.

I humbly take notice that any Contracts with Mr Dale and Company can have no relation to this Question in hand. Therefore whether you'l Order the said Lessees to pay the said price contracted for by Charles Alsopp or return the purchaser so much oar as he carry'd off in Order to be deliver'd to the said Charles Alsopp within the term of his said Contract is humbly submitted.

Fourthly The unfair and disorderly working the said Mines Contrary to the Covenants of the Lease.

The Lessees produce four affidavits hereunto annex'd in their vindication as to the workings, and as to the putting down of Buildings and other matterials they refferr themselves to the very last Clause in the Lease. Vide (the Lease).

The purchaser offer'd an Arbitration in this Case as to the Damage: The Lessee refusing. The purchaser humbly hopes this Board will in no kind debarr him from such satisfaction the Law shall entitle him to by virtue of the said Covenants.

All which is humbly submitted

To the Honorable Commissioners for Sale of the Fo[rfeited] Estates

The following Memoriall most humbly Sheweth

That Your Memorialist After due advising and Deliberation thought it very improper to signe Bonds of Arbitration with respect to Jeffrey's Grove and at present as well as for the future entirely Declines to Concerne himself to assert any rights whatsoever which this Board's in honour obliged to Maintain; However, If he had signed such Bonds rashly under a Mistaken notion of peace, they should have been of none Effect, since an Award Could not be made before the first of Aprill and Consequently what ever Judgment such Referrees had Given must have been Ineffectuall.

It is Nevertheless in the power of this Honourable Board to prolong such Bonds If the like or better were to be had, or Else to demand Tribble [treble?] Damages and recover them too, by Virtue of the Act Appointing this Honourable Commission upon Information what Damages or Wast[e]s have been done or comitted to or Upon any of the forfeited Estates belonging to the publick, and as such, vested in this Board, without any [of] the formalities of Tedious Law Suits or otherwise.

Your Memorialist therefore humbly hopes that having bought all Mr Foster's Estate & Interest &c also All Demands and priviledges the publick since the Forfeiture thereof Could have thereunto, That this Honourable Board will be Assiduous and without any reserve in the Obtaining what he presumes is or should be his right, and satisfaction to the utmost farthing for Damages, which to all Indifferent Spectators are Esteem'd Equally Villainous as Great.

Your Memorialist as <conjunct> Agent with Mr Maughan to this Honourable Board in the Dirrection of the Lead Mines, late Mr Fosters, has not, as he conceives, been any way as deficient in the Just management of and Information from time to time concerning these Affaires. And Therefore Humbly Hopes and Expects that he will be reimbursed his Charges in repairing those ruined works and also have satisfaction for Attendance and trouble, If a Multitude of Memorialls, Briefs, Journeys, Loss of time and Cash are to be regarded as anything: Meanwhile as in the Capacity of a purchaser he begs Leave to say its an unaccountable hardship and he thinks unfair even to be supposed to be Lyable to pay Interest for money unpaid which at any time was, is and shall be ready, as has often been told to persons Concerned in the Office, purely because the purchaser upon good advise Justly, Imagines he Can't or won't have a Tittle made him from this Honourable Board Agreeable to his Contract.

That to <Evince> the Equitableness of this Assertion Your Purchaser humbly begs Leave to say the Dilatory Proceedings of his Board with relation to Mr <...> [ma]king his report Concerning the B: B: pretentions & Title and also the Indulgent leniency Shown to Every of the Bishops Agents in Contradiction to Your purchaser as is sufficiently hinted in a memoriall of the Second of December last Gives him too Just umbrages of Beleiving that a worse Temper and Treatment would show itself with relation to his present business in hand if all the purchase money was paid then appeased at his offering to buy the Estates of my late L[or]d Widdrington & the late Viscount Bollingbrook.

You Memorialist humbly begs Leave (overlooking what is before suggested) further to Inform this hon[oura]ble Board, that altho' the performance or non performance of his Contract can't personally hurt him as a purchaser yet as it concerns his friend, he thinks himself in honour obliged to be equally solicitous about the Just Establishment at least of an Apparent if not a real Title for which reasons only he has thought proper very much contrary to his own Inclinations to Act in this manner and so frequently to present memorialls.

He further most humbly represents that by Letter from Shields he's informed when Mr Maughan according to the Boards orders dated January Last demanded the Boundry Books, warrant for Game keeping and other writings relating to the Libertyes etc They answered he might go and seek them they would not trouble themselves about any such things and Mr Stonehewer particularly with the utmost Invectives Affirmed there was no right neither should there be any digging for peats etc and since that time one of the Bishops Tenants of Blanchland named Marchall stopt the carriage of Lead to the Smelt Mill and told the men they should not come that way tho then

keeping the open Road. It's very Easy to Imagine from what fountain such abuses come and how fitt it is persons so good natured should be treated with civility.

Your memorialist by a Letter from Wolsingham of the 11th Aprill last is also informed of a report Mr Fookes and Mr Maughan sent up to this Hon[ora]ble Board with relation to the water which report has not yet appeared neither upon the whole of that matter so farr as your Memorialist can find does there seem to be and manner of Notice taken by Mr Ord. The same letter Informed of the Insolence of all the B: B: agents.

In obedience to this Hon[ora]ble Board and in pursuance of a Memoriall presented the third last month I'me informed that the two Cotelands of Clark and Spenser are and always were let away with and belong to the farm of Chidlane so that he hopes the Board wou'd not reckon them twice in their Rentall: I:E: Join them with Chidlane farm and Mindrum Gleab too and thereby make 10L per ann[um] pass for five pounds; this indeed and I hope the Hono[ra]ble Board will pardon me for saying so is in it's kind full as bad as attempting to content a person with two halves of two lead Mines instead of a Noble Royalty whereupon these may perhaps be found Twenty whole ones and much better. Besides with relation to the Cotelands We beg leave to Observe that old houses even in a Life rent are not half so valuable as Land supposing these really were such houses (which there is not) And since the Board's orders were Observed in taking possession its with all submission humbly asserted that this Hono[ra]ble Board are obliged not only to make good such deficiencies but also to be answerable for the Consequenceyes of such Mistakes.

Upon the whole Your Memorialist most humbly hopes that without any further delay he'll either have his purchase fully cleared up and Vindicated or his money paid in, returned and charges allowed. For since his business won't by any means allow him to wast more time (even as in the station of a Conjunct Agent to this Hono[ra]ble Board which he has been proud of) and there's no probability of this Hono[ra]ble Board s ever being able to make Mr Forsters Estate at Blanchland worth half the money and charges which is already paid in and laid out by the purchaser He therefore with all submission to the Hono[ra]ble Board begs leave to say that if upon supposition a fine Horse is sold and bought but upon delivery that horse should prove a contemptible ass Certainly the Bargain on Consequence must be void and this seller's to make good the Losses, for non performance, to the buyer.

In fine whatever Notions this Hono[ra]ble Board may have of this Memoriall, the Memorialist asking no forbearance but hoping for an equitable treatment humbly Affairms he has no Intentions but what are Honorable and therefore he hopes If anything therein is Disagreeable this Hono[ra]ble Board will pardon the same. Meanwhile as he has the greatest opinion of your probity and veracity most humbly depends upon them for their equitable redressing his grivances withal being informed that the Gentlemen Neighbouring upon <.> particularly the B: of Durham, the Dean and Chapter and Mr Ord are for riding their boundaries very soon it will be requisite (if this Hono[ra]ble Board pleases) to take Care the Circumforence of B: Afores[ai]d be not Incroached upon.

May it please Your Honours

Accidentally hearing that Your Comission was now near concludeing & that then you'd make some presents or somewhat Like it to your purchasers I made Bold with all modesty & submission to beg a share of your favours In humble consideration of my paying some thousands of pounds & promiseing many more to be pay'd into the Exchequor by advanced prices etc. I am in truth a very great sufferer my self, however serviceable to others, by such purchases especially by that Unfortunate & Exorbitant one of Mr Fosters Lead Mines Which from first to Last & Still I'm a miserable Looser by (tho' tenderly upon that point Dealt with by Your Honour) from the Base & Sinister dealings of my <Bro> Kinsman Mr Coulson More Especially by the same being subsequent to my Late unparrallel and miserable Loss; being after that oblided to and having pay'd and advanced every penny for the purchases myself. Nevertheless as I hold it impertinent, because you may think it troublesome, I shan't say any more of Accumulated miseries upon repeated Afflications since the same are too well known to the World But refer to Mr Studly for confirmation of the Above. Meanwhile the Condesention & Honour of any Answer directed to be left for me at Mrs Watts's a Tobaconess in Philpot Lane Fan Church Street would be a singular satisfaction & demonstration of forgiveness to

May it please Your Honor's
